REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose applicant's Line Information Database (LIDB) that holds variable and invariant data, the variable data being produced in an enterprise application in a data network. Neither does the prior art disclose an LIDB coupled to a SCP, a gateway node coupled to an SCP and an enterprise application in a data network, and cookie writing logic linked to an enterprise application and programmed to write variable data to the LIDB. Neither does the prior art disclose the retrieval of variable from the LIDB prior to establishing a phone call. Neither does the prior art teach collecting the variable data in an enterprise application that is connected to a gateway node. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
